Enjoy your terrace

No. 2
April 2021

What's new in 2021

Fall in love with our new
50 x 100 cm format

We present the 121 CM
channel drain: perfect for
terraces

Cleaning special: how
to clean your porcelain
stoneware terrace

New ideas for designing
your terrace

MISTERY GREY ANTI-SLIP 48,8 x 97,9 cm

A photograph of a modern outdoor terrace. In the foreground, a wooden coffee table holds a glass pitcher of water and two glasses. To the left, a light-colored sofa with patterned cushions is visible. In the background, a wooden lounge chair with a blue towel draped over it sits on a paved surface. The terrace overlooks a lush green landscape under a clear blue sky.

It's time for some outdoor living on your terrace!

There are times when going outdoors is more attractive than ever. It is now spring, and summer is just around the corner! Without doubt, one of the best times of the year to inspire the second edition of **Outdoor Living by Rosa Gres**. Thank you for being here!

We encourage you to discover our suggestions for making the most of your terrace: a new paving tile format you will love, 50 x 100 cm; the perfect channel drain; cleaning tips to make your flooring look beautiful with minimum effort; and new design ideas for decorating your terrace with our porcelain stoneware floors and highly personal complements.

Enjoy your terrace!

Harmony

THE NEW PORCELAIN STONEWARE CHANNEL DRAIN THAT IS PERFECT FOR TERRACES

We are proud to present the perfect channel drain

PIETRO GOLDEN ANTI-SLIP 31 x 62,6 cm

decor ideas

Choose a 121 CM that is the same color as the paving for a highly efficient channel that perfectly matches your terrace floor design.

Why choose the new 121 CM channel drain?

1

It looks better

The channel drain is hidden by the 121 CM ceramic piece. Once in place, it blends in so well with the paving it is practically invisible.

2

It has increased drainage capacity

The drainage takes place along the length of the piece, thus avoiding residue accumulations.

3

It is easy to clean

Its design makes it easy to access the channel to clean it out.

4

Is it super resistant! 100% porcelain stoneware

Unibody Design: the **121 CM** channel drain is a compact piece without any joints or attachments.

5

It is anti-slip

The **121 CM** includes the **Rosa Gres** anti-slip finish, one of the safest on the market.

6

It is a total solution

This complete channel system includes all the pieces and complements.

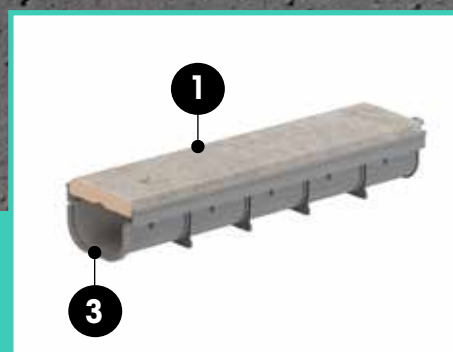

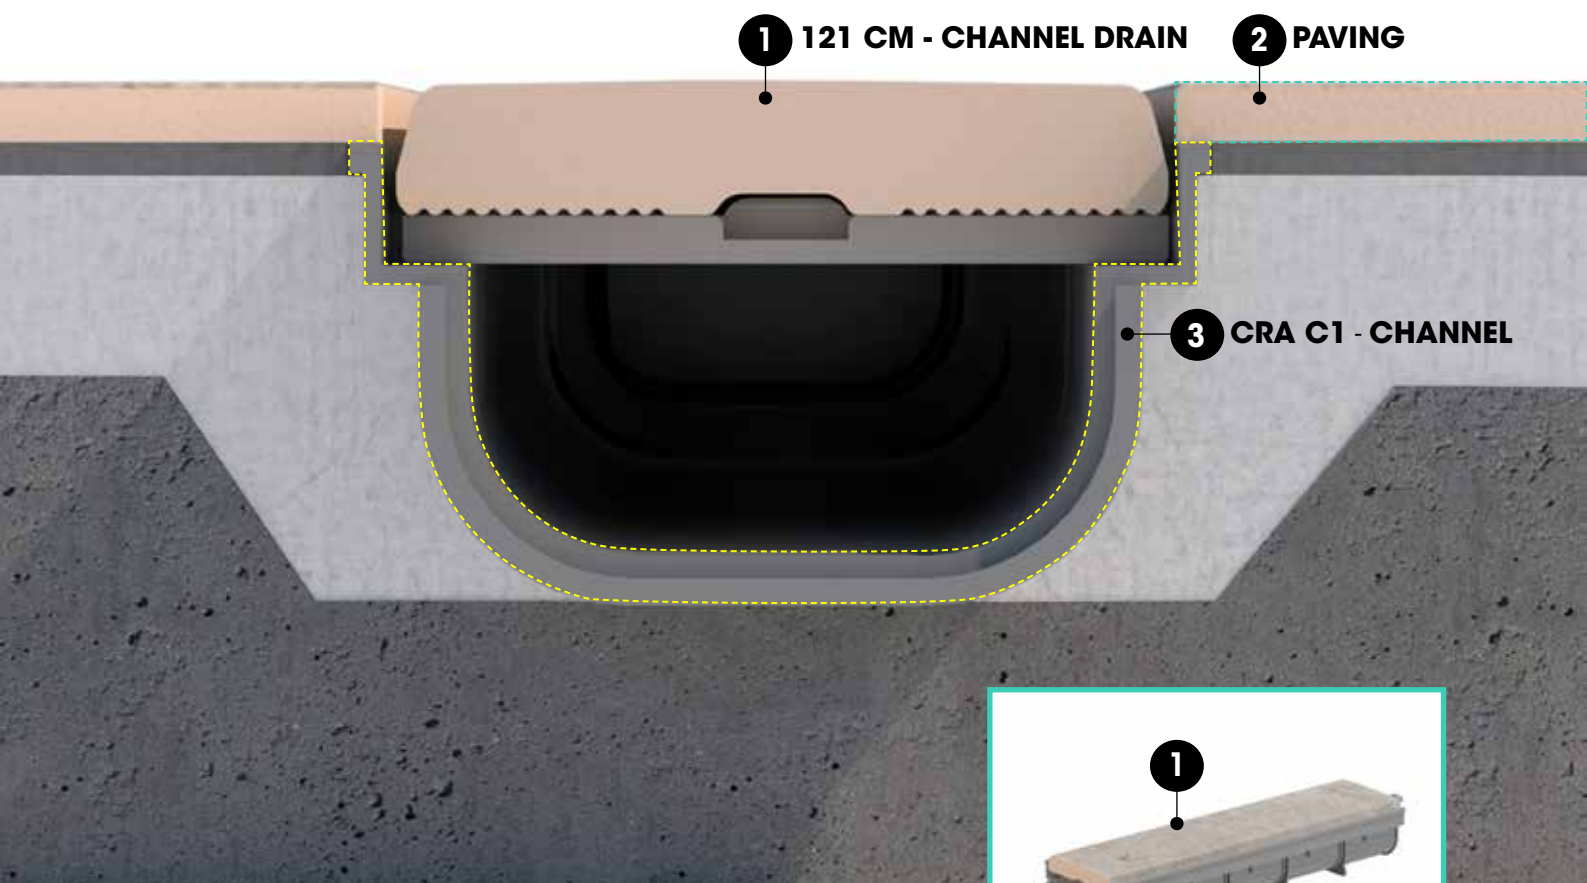

7

It is beautiful!

Available in all **Rosa Gres** colors and compatible with all formats.

THE NEW PORCELAIN STONEWARE CHANNEL DRAIN THAT IS PERFECT FOR TERRACES

An innovative design with a smooth and efficient overflow

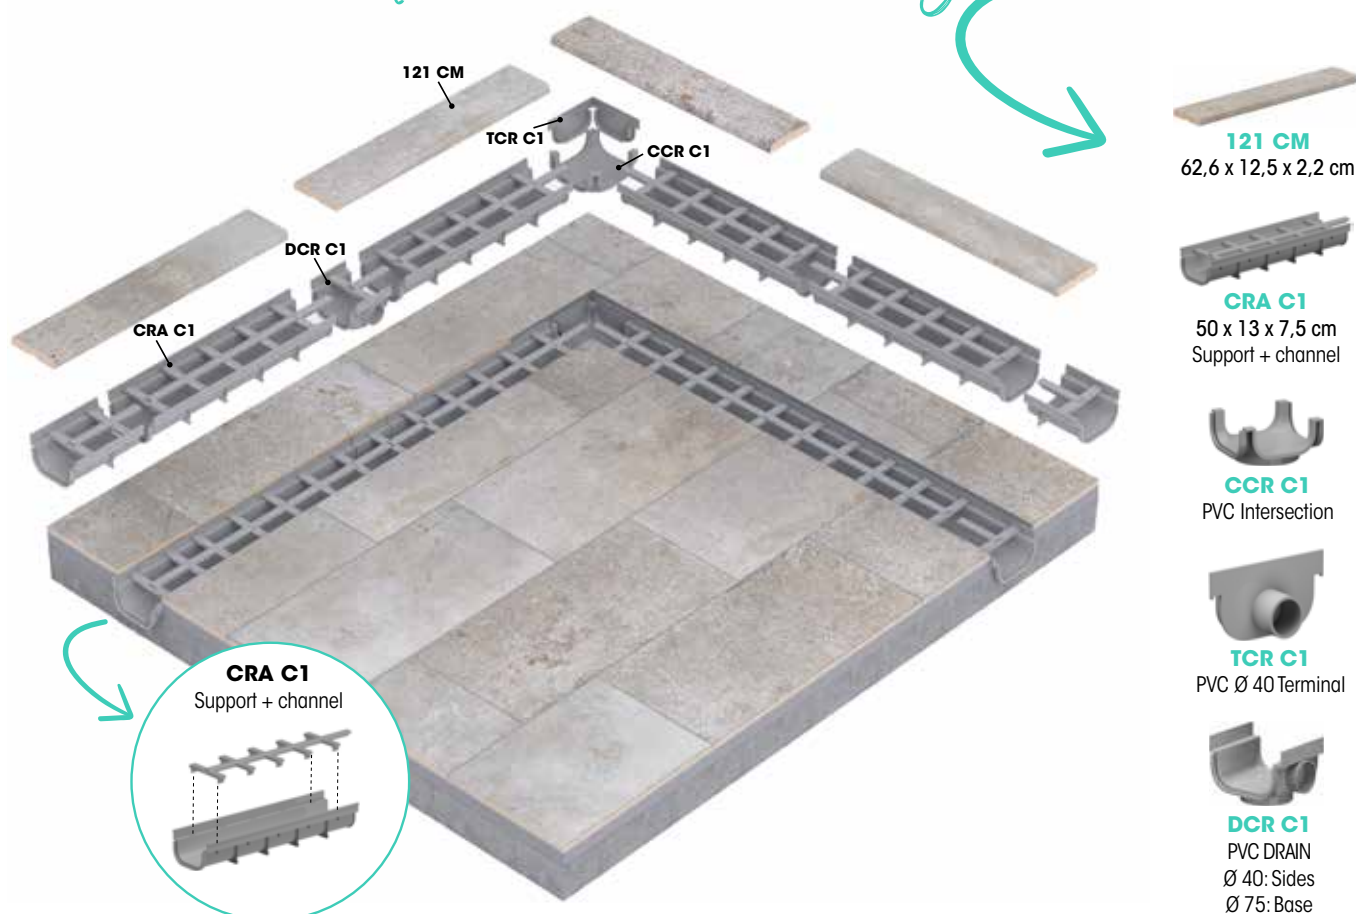

The **CRA C1** channel has been redesigned to include a new support that improves the consistency of the entire system.

Placing the **121 CM** on the new support increases its stability and evacuation capacity. The water will flow and drain through the sides of the piece.

The new design of the channel drain enhances its esthetic harmony. The **121 CM** piece has a uniform appearance, and it blends seamlessly into the paving. Once installed it elegantly hides the channel.

A complete channel system

How to install it, step by step

1 BUILD A RESISTANT BASE.

2 LEVEL THE CHANNELS ON THE BASE AND PLACE THE SUPPORTS.

3 FILL THE SIDES WITH MORTAR.

4 PLACE THE CERAMIC PAVING ON TOP OF THE CHANNEL.

CLEANING SOLUTIONS

How to make your porcelain stoneware look spotless for a lifetime

MISTERY WHITE ANTI-SLIP 31 x 62,6 cm

Cleaning tips

When?

Daily

Goal

**Perfect
maintenance**

- 1** Sweep, brush or use a blower to remove leaves and other solid residues.
- 2** Wash the floor with plenty of hot water. If necessary, brush it down.
- 3** Change the water every 15 m² for best results. If you finish by rinsing it with water, the result will last longer.
- 4** Test the detergents and cleaning products before using them on an area that is not too visible. We recommend using a neutral detergent like **FIX-SABÓ**®.
- 5** Protect the paving from elements that could be dragged over it and avoid dropping heavy materials or sharp objects.
- 6** For the dirtiest parts of the paving, you can use water mixed with bleach or ammonia and then rinse with water. If you find build-ups of fat or oil, apply a multi-purpose degreaser like **FIX-SABÓ**®, rinse with clean water and leave to dry. If there are only light residues, an ammonia solution should easily get rid of them.

Good ideas

FIX-SABÓ

It is the perfect detergent
for cleaning indoor and
outdoor floors

Powerful degreaser

Antimicrobial effect

Fresh, clean, delicate
smell

**Do you know why
Porcelain Stoneware
is so easy to clean?**

*Because its water
absorption values are low
(0.5%), and it does not
retain or absorb dirt.*

Checklist: the essential tips

Post construction cleaning

Carrying out a thorough cleaning is a basic and necessary step: it is essential to efficiently remove cement residues or other leftovers.

How to deal with stubborn stains

Es Every stain should be seen to properly and quickly to make removing it as easy as possible. Discover its cause and check our chart with solutions for every kind of stain on the following page.

Cleaning areas with hard water

In case of not having a water softener, the best thing is to clean up the water as quickly as possible to avoid lime adhering to the paving.

What **NOT** to do

- Do **not** use abrasive, solvent or corrosive acid-based products like hydrochloric acid, because they destroy the joints between ceramic tiles.
- Do **not** apply polishers or wax because they form a layer on top of the dirt that makes cleaning more difficult and can also alter the anti-slip properties.

Porcelain stoneware that looks like slate **Beautiful**

PIETRO GREY ANTI-SLIP 48,8 x 97,9 cm

Pietro Grey is inspired by a material as genuine as slate. Its design is rich and nuanced. It adds a modern and elegant air to your decor and perfectly matches crude-toned textiles, natural fibers and any kind of flower you can imagine.

Why choose porcelain stoneware for my terrace?

1

It is highly resistant. Unaffected by solar radiation, contact with water, ice or cold. It does not change color or break.

2

Extremely clean. Remains in perfect conditions with minimum effort. This material is so hygienic it is not susceptible to bacterial build-up.

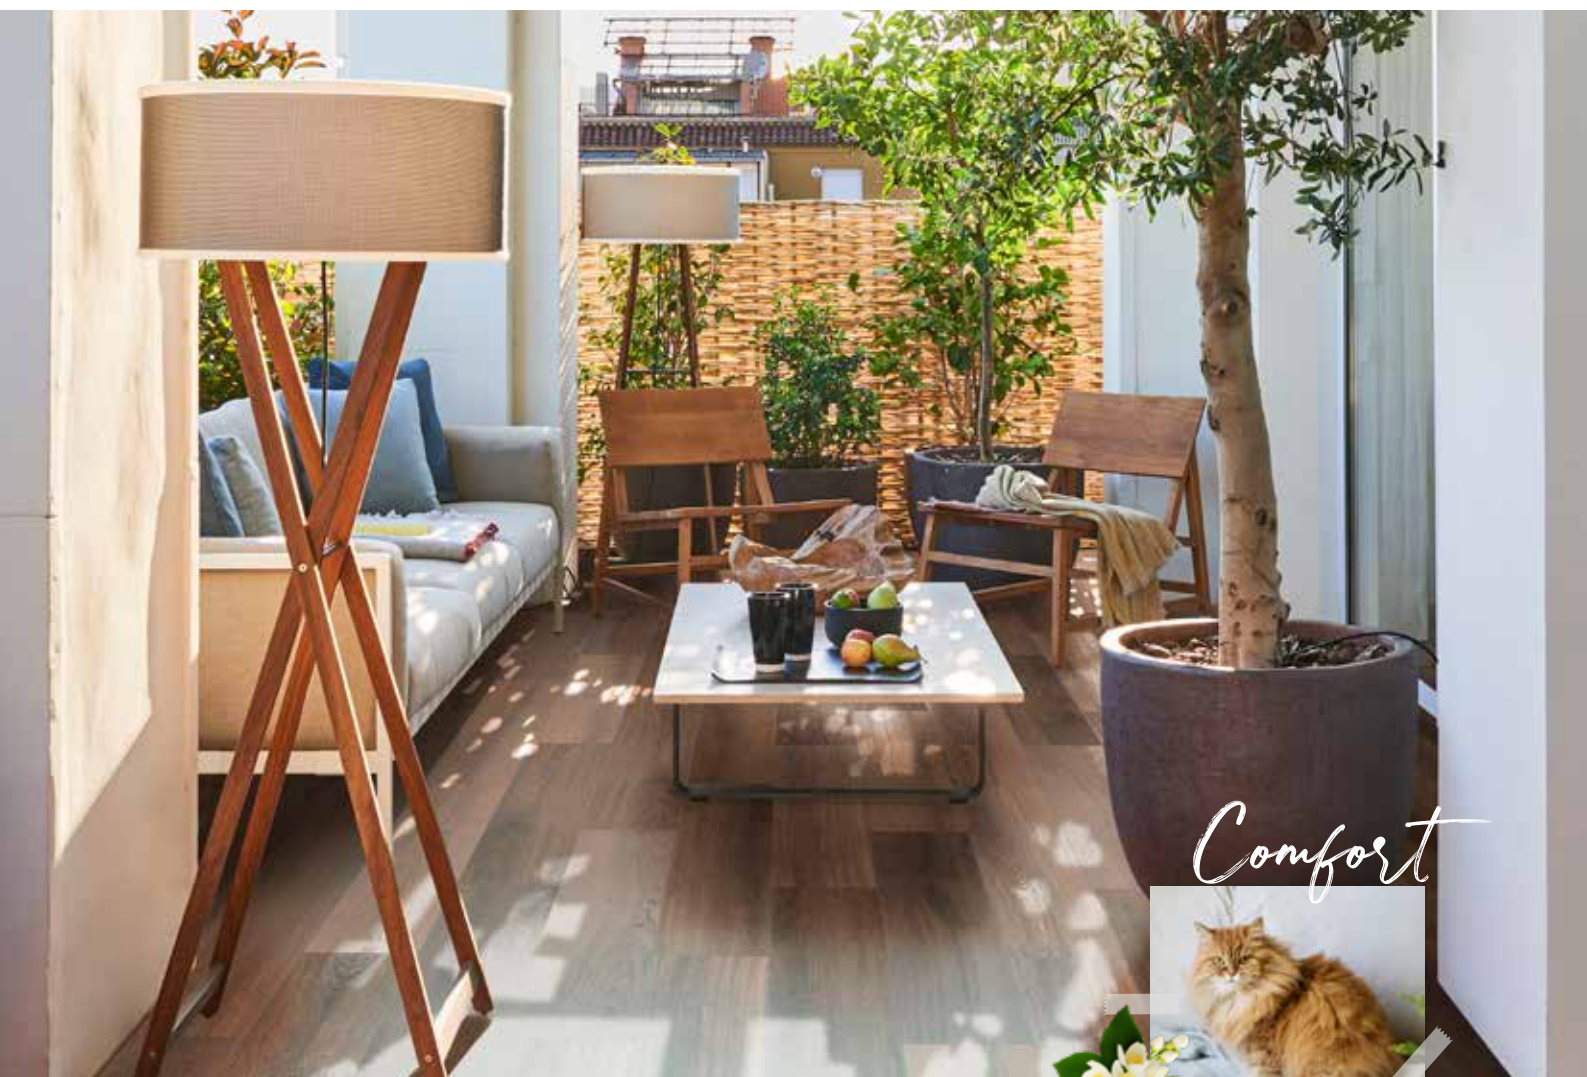

3

Endless esthetic possibilities. With Rosa Gres paving, available in more than 30 colors and textures, you can create unique personal designs for your terrace.

4

It is a sustainable material. Its resistance is so high it lasts for the longest time. It does not spoil and therefore wastes fewer energy resources.

2 Small terraces that make the house gain space and breathe

deco ideas

How to transform your terrace into an outdoor living space. Three ideas: pave the floor with the anti-slip ceramic wood Alma Forest, choose some comfortable furniture and surround it with plants. Mission accomplished!

ALMA FOREST ANTI-SLIP 19,41 x 97,9

deco ideas

Create an indoor terrace where you can grow all the plants you love without having to worry about the floor. It is ceramic wood! It is unaffected by water, humidity or temperature changes. It is easy to clean and looks spotless day after day.

fresh!

ALMA PURE ANTI-SLIP 19,41 x 97,9

The dream:

A dining corner next to the pool

STELA GREY ANTI-SLIP 19,4 x 97,9 cm & PIETRO DARK ANTI-SLIP 31 x 62,6 cm

deco ideas

A heavenly corner facing the ocean with beautiful secrets like choosing a coordinated **#ilovemix** design featuring wood and slate textures: **Stela Grey**, our aged wood, and **Pietro Dark**, veined gray slate.

Stela Grey 19,41 x 97,9

Pietro Dark 31 x 62,6

Different shades of gray facing the sea: **I want it !**

deco ideas

A terrace overlooking the sea is a true treasure. The best thing you can do to enjoy it as much as possible is to surround it with practical noble materials. For this chic Mediterranean project, the floor and wall have been done entirely in grey: our color **Serena Griggio** combined with evocative furniture, linen, crude tones and details as blue as the sea.

SERENA GRIGGIO ANTI-SLIP 31 x 62,6 cm

Don't think twice, ceramic wood is perfect for outdoor spaces

The **Rosa Gres** porcelain stoneware that looks like wood does not spoil and is easy to clean.

A highly practical solution that conveys warmth and zero problems.

Discover the 8 colors of our ceramic wood; see page 32 for **Stela** and page 34 for **Alma**.

STELA GREY ANTI-SLIP 19,4 x 97,9 cm & STELA WHITE ANTI-SLIP 19,4 x 97,9 cm

Stela Grey 19,41 x 97,9

Stela White 19,41 x 97,9

deco ideas

To create a fresh and welcoming atmosphere with a touch of originality, this terrace was made combining two different tones of ceramic wood: **Stela White** on the wall and **Stela Grey** on the floor
